MANAGER COMMENT

At the start of 2024, the recovery in the global economy continued to be evident, although it was generally uneven across different regions. The International Monetary Fund (IMF) has projected a soft landing, reiterating the lagged effects of monetary policy tightening and a strong disinflation trend. The US economy performed strongly in the fourth quarter of 2023: Gross Domestic Product (GDP) increased at an annualised rate of 3.3% compared with an increase of 4.9% in the third quarter of 2023.

In January, five of the central banks overseeing the 10 most heavily-traded currencies - the US Federal Reserve (US Fed), the European Central Bank (ECB), the Bank of Japan, Bank of Canada and Norges Bank - held rate setting meetings. None of them changed rates. In SA, the Reserve Bank's Monetary Policy Committee (MPC), in its first meeting for the year, unanimously voted for an interest rate pause. Although South African consumers are feeling the impact of "higher-for-longer" interest rates, economists expect rates to be on hold until the second half of the year, and then cuts will begin.

The year started on a generally positive note for investors, with the MSCI World Index ending the month up 1.2% in dollar terms. Although there was some optimism, global bonds ended negatively at -1.38% m/m and global property was also in negative territory at 3.99% m/m (both in dollars). Emerging markets were negative for the month: the MSCI Emerging Markets Index ended at -4.64% (in dollars). The Dow Jones was in positive territory at 1.31% m/m and the S&P 500 at 1.68% m/m (both in dollars), the EuroStoxx Index ended at 2.97% m/m in euros and the Nikkei at 8.44% m/m in yen. The FTSE 100 Index ended the month at -1.32% in pounds but the DAX gained 0.91% in euros.

South African stocks experienced a tough start of the year, with the All Share Index ending the month at -2.93% in rands. The derivatives market underperformed for the month, with Resources ending at -6.31% m/m, Industrials at -4.32% m/m and Financials at -3.17% m/m. Cash was positive, with the STeFI ending at 0.7% m/m in rands. Bonds ended in positive territory for the month, boosting the credit market. The All-Bond Index ended at 0.71% m/m in rands, with bonds of 1-3 years at 0.78% m/m, bonds of 3-7 years at 0.83% m/m, bonds of 7-12 years at 0.69% m/m and bonds of over 12 years at 0.65% m/m. The rand weakened against several currencies: against the US dollar by -1.67% m/m, the euro by -0.01% m/m, and the pound at -1.57% m/m. However, it strengthened by 3.68% against the yen.
