## MANAGER COMMENT

September opened with the G20 Summit, when world leaders came together in one setting to discuss global issues under the theme of "One Earth, One Family, One Future". The European Central Bank (ECB) raised rates to 4% in September, taking them to the highest level since 1999. While the US Federal Reserve (Fed) kept rates unchanged at 5.25%-5.50%, Fed Chair Jerome Powell anticipated further rate hikes would be needed to achieve the 2% inflation target.

The UK also paused rates at 5.25%, providing relief to households battling rising prices and high borrowing costs. China's economy continues to weaken and data from the Chinese Beige Book survey indicate that retail sales and pricing power as well as manufacturing production and loans contributed to the slowdown in the Chinese economy. Locally, the South African Reserve Bank (SARB) kept interest rates unchanged at 8.25% at the September Monetary Policy Committee (MPC) meeting. The South African economy grew 0.60% in the second quarter of 2023 and there was concern that it might move into recession in the first quarter of 2023.

Global equity markets fell for a second consecutive month, with the MSCI World ending the month at -4.31% in dollar terms. Interest rates were a key factor weighing on market sentiment in September as investors' focus shifted from how much higher rates could go to how long rates would remain elevated and how many cuts would eventually come.

Emerging Market (EM) stocks outperformed their Developed Market (DM) counterparts. The MSCI EM ended at -2.57% month-on-month (m/m) in dollar terms with China dragging on EM stocks. Global Bonds ended the month negatively, at -2.92%, and Global Property was -5.96%, both in dollar terms. The FTSE ended the month at 1.82% in pound terms and the S&P 500 at a negative 4.77% in dollar terms. In domestic bond markets, the FTSE/JSE All Bond Index closed the month at -2.34% with the 1-3 year bonds at -0.36% m/m, 3-7 year bonds at -1.22% m/m, 7-12 year bonds at -2.84% m/m and bonds over 12 years at -2.96% m/m.

The South African share market followed global equity markets lower. The FTSE All-Share Index closed the month at -2.55%. Industrials and Property were in negative territory at -4.44% and -4.08% m/m. Resources ended with a positive 0.95% return. Financials ended negatively at -3.83% m/m. Cash was in positive territory at 0.68%. The local currency held up relatively well against a generally strong US dollar, ending the month at 0.51%. It performed relatively well against the euro and pound at 3.03% and 4.34% respectively. The rand performed negatively for the month against the Japanese yen at -0.17% and -0.65% against the Australian dollar.
