MANAGER COMMENT

Following a strong start to the year, most global markets came under pressure in February, including locally. With the US economy showing resilient data and inflationary pressures lingering, investors are now pricing in higher rates for longer. Concerns around US and China relations over Russia weighed on investor sentiment, with the Russian invasion of Ukraine surpassing the one-year anniversary during the month.

Developed equity markets lost momentum in February, with the US unemployment and inflation data weighing on investor sentiment. The MSCI World Index returned -2.40% m/m in USD and 2.67 m/m in ZAR. US large-cap tech stocks were amongst the few winners in February, however, there were mixed results for individual stocks. The S&P 500 closed at -2.45% m/m. With risks of a deep recession decreasing significantly in Europe, the Euro Stoxx 50 (€) pushed 1.94% higher m/m. The surprising resilience of some data coming out of the UK resulted in the UK's blue-chip FTSE (£) increasing by 1.52% m/m.

Emerging markets fared worse than their developed counterparts for the first time in four months, the MSCI Emerging Markets Index closed at -6.54% m/m in USD and 1.56% m/m in ZAR. Chinese stocks were amongst the worst performing, particularly foreign-listed Chinese corporates. China's escalating geopolitical tensions seemingly resulted in investors taking some profit after rallying the past three months from October lows.

The South African equity market followed world markets lower, despite a generally positive month for stocks geared to the domestic economy, with the notable exception of the retailers. The FTSE/JSE All Share Index closed at -2.19% m/m, with the biggest drag on the local bourse stemming from the miners, weighed down by generally weaker commodity prices.

On a sector level, Resources was the only sector to finish in negative territory, closing at -13.23% m/m. Financials led the pack, closing at 1.96% m/m, while Industrials lagged slightly closing at 1.66% m/m. SA Listed Property fell for the second consecutive month, -0.72% m/m. Local Bonds lost some ground, with the All Bond Index (ALBI) returning -0.87% m/m. Cash (STeFI) delivered a moderate return of 0.54% m/m. South African growth managers (-1.96% m/m) outperformed value managers (-2.48% m/m) once again, consistent with global occurrence.

The rand continued to weaken against the dollar, falling 5.06% m/m. Among the major currencies, only the Argentine peso fared worse year-to-date (YTD) against the dollar. The rand lost as much as 3.46% and 2.77% m/m against the sterling and euro respectively. However, the rand managed to gain against the Japanese yen, closing at 4.74% m/m.
