MANAGER COMMENT

Among the biggest interest rate and inflation increases in history, lie numerous global challenges. June had no shortage of global and local issues affecting the economy, various countries and their citizens. Job and salary cuts in China have led to factory workers striking, which in turn has caused unrest. This is detrimental to the growth of the Chinese economy. The US debt limit was also reached, and the US Congress needed to vote on whether the US debt limits had to be raised or suspended. Additionally, the US GDP was revised, with inflation slowing down for the month. Also making headlines on a global scale is the continuation of the Russia-Ukraine conflict with Putin saying that the Wagner uprising was doomed to fail. Locally, the electricity crisis continued into winter, leaving South Africans with limited, to no alternative, electricity in the dark. In addition, South Africa being accused of weaponising Russia has raised questions as to its status as part of the African Growth and Opportunity Act (AGOA).

Global equity markets rallied strongly into mid-year with the MSCI World Index ending the month on 6.05% in dollar terms. The threat around the US debt limit was safely avoided and a pause in rate hikes by the US Fed kept equity markets afloat. Global Bonds were in negative territory and ended at -0.01% month-on-month (m/m) and Global Property ended the month positive at 3.18% in dollar terms. Emerging markets have lagged developed markets year-to-date, with foreign-listed Chinese companies the biggest laggards in the face of a disappointing rebound in Chinese economic activity, but remained in positive territory at 3.89% m/m. The FTSE 100 Index ended the month positive at 0.99% and the S&P 500 ended positive at 6.61% m/m in dollar terms.

The local market also finished strong in June, with the FTSE/JSE All Share Index ending positive at 1.35% m/m. Industrials were at 3.65% m/m and Resources at -8.17%. Local Property ended the month at 0.92% m/m, and Financials and Cash ended at 11.39% m/m and 0.65% m/m respectively. The rand ended the month at 4.90% against the US dollar, 2.50% against the euro, 2.26% against the pound, 7.32% against the yen and 3.25% against the Australian dollar.
